

LÜCHINGER MEYER PARTNER is a leading engineering firm for façades and lightweight structures. We are involved throughout Switzerland and internationally in excellent planning teams alongside leading architectural firms for demanding clients.

For our office in **Madrid** we are looking for a

Façade designer (m/f/d) 80-100%

Your tasks

- Handling challenging façade projects using a wide range of construction types and materials
- Preparation of planning documents with 2D and 3D CAD systems - AutoCad (Athena), optionally Rhino and Revit - as a basis for project development and tendering
- Developing detailed solutions and technical design of building envelopes in collaboration with architects, specialist planners and industry partners
- Support for quantity determination in the preparation of bills of quantities
- Site inspection
- Application of "open BIM" or "closed BIM" where applicable

Your profile

- Successfully completed training/apprenticeship as a facade designer or metal construction designer, with professional experience
- Sound knowledge in the use of CAD software AutoCad
- Ability to work creatively

- Ideally initial experience in the processing of BIM projects
- Interest in the development of digitalization in the construction planning industry
- Ability to work in a team as well as independently and efficiently
- Fluent in English, good knowledge of Spanish, German or French an advantage

We offer

- Exciting and varied work in a creative and international environment
- Workplace in modern offices in a central location with good public transport connections
- Cooperative teamwork and a good working atmosphere
- Flexible working hours, good pension fund solution
- Long-term future prospects
- Participation in a wide range of internal training programs and sporting events

We look forward to receiving your application documents, which you can send to us by e-mail or post.
