

LÜCHINGER MEYER PARTNER is a leading engineering firm for façades and lightweight structures. We are involved throughout Switzerland and internationally in excellent planning teams alongside leading architectural firms for demanding clients.

For our office in **Madrid** we are looking for a

Project manager façade planning (m/f/d) 80-100%

Your tasks

- Project management of demanding façade construction projects with management and budget responsibility
- Independent development of façades in collaboration with architects, specialist planners and other interface partners
- Preparation of user specifications, technical reports and tender documents as well managing the façade design
- Post tender project support and monitoring of the execution design, fabrication and installation

Your profile

- Experience as a façade architect, engineer or technical designer
- Distinctive interest for conceptual development of façade systems
- Professional experience in a comparable position and interdisciplinary planning teams (experience as a project manager is desirable, but not mandatory)

- Active interest in technological developments in the field, particularly in sustainability aspects (e.g. wood, clay, re-use and photovoltaics)
- Experienced handling of CAD program AutoCAD, Rhino and Revit
- Assertive, structured and well organized
- Ability to work in a team as well as independently and efficiently
- Fluent in English, good knowledge of Spanish, German or French an advantage

We offer

- Challenging and varied work in a creative and international environment
- Workplace in modern offices in a central location with good public transport connections
- Collegial teamwork and a good working atmosphere
- Flexible working hours, good pension fund solution
- Long-term future prospects
- Participation in a wide range of internal training programs and sporting events

We look forward to receiving your application documents, which you can send to us by e-mail or post.
